

# Gold's Gym's Best Just Got Better!

***TOPPS Adds Strength to Largest Co-Ed Gym in Nation***

Voted Best New Gold's Gym of the Year when it opened in 2005, in 2006 Topps Seal was selected when the owner consortium decided to further this status. The 53,400 square foot roof underwent complete climate update and waterproofing with the Energy Star® approved white Topps Seal installation.

Today, Gold's Gym claims to be the largest chain of co-ed gyms in the world, featuring world-class equipment and 3 million members. This facility represents one of the best among over 600 units that span 43 states and 25 countries. The full project was completed by 4 men in 6 business days.

## Preparation Before Coating

Topps' super strong rubber locks down all tightened seams and fasteners before a single drop of the seamless Topps Seal ever is applied.
